

EL & EL Wood Products
INTERIOR DOOR COLLECTION

Millwork that creates distinction.™

At EL & EL Wood Products it is all about the details. There are many alternatives when it comes to choosing a new entryway for your home. When you choose an EL & EL Interior Door it's all about the options.

EL & EL and our partners have come together to offer the most comprehensive line of Interior Door Units in the marketplace today. Choose from Simpson, Masonite, Trimlite or CoxUSA styles in your choice of a variety of different species that are available in a multiplicity of sizes to best suit your needs.

We offer options to fit any budget and choosing one of our door designs is the first step in creating a beautiful doorway that can provide exactly the look you want for your home.

EL & EL understands that your home is a reflection of who you are. That's why we've designed a range of doors and glass options to help express a character that is undeniably yours.

Interior Doors

Barn Doors

Why Choose EL&EL Wood Products Premium Barn Doors?

Each EL&EL Wood Products barn door is built with authentic stile and rail construction by hand. Our barn doors are built solid and authentic, putting them in a league of their own.

Full Sized Mulls

Our barn doors have center/cross mulls that are full thickness making sure that the stile meets flush at the stile and rail joints for a truly custom finish.

Deeper V-Grooves

Our V-Grooves are deeper than alternatives. This was devised to accentuate the plank style and design that our customers crave.

Separate Panels

Distinct 3/4" edge glued panels. Creates a door that is timeless and beautiful.

Time Proven Beauty,

Created with the care and craftsmanship to match, our barn doors are here to stay.

Dividers Sliding Passage Door

The dividers sliding passage door is a system that can be mounted to a surface of a wall with no floor tracks required. The versatility of the sliding passage door system combines the functionality and safety of a trackless door system. The sliding passage door system is ideal for dividing small spaces and creating new and unique rooms such as a study, a retreat, a private nook and most often a master bedroom en suite - popular spaces in today's contemporary homes.

Panel Systems available in:

- Single • Double
- Triple • Quad

4 Standard Glass

Options Available:

- Mirror • Black Painted Glass
- White Lami • Polar White

Offered In

4 Standard Frame Finishes:

- Black • White
- Java • Satin Aluminum

Maximum panel weight:

150 lbs.

Complies with ADA standards for push/pull force

Latches and pulls for privacy and passage applications

Simple To Install

MADE IN AMERICA

Sliding Closet Doors

The dividers sliding closet door combines the functionality of a standard closet door with the aesthetics of a contemporary wardrobe door. This system can be mounted under a header or to a ceiling. Concealed bottom rollers adjust to accommodate out of square openings. This quality closet door system uses ball bearing twin wheel top guides for smooth operation and ball bearing bottom rollers with internal gears that provide a maximum height adjustment of 7/8".

All the same features as the Dividers Sliding Passage Door, as well as:

Choose from 4 decorative rail options:

- 2-lite • 3-lite
- 4-lite • 5-lite

Standard or ADA compliant track systems

Concealed bottom rollers adjust to accommodate out of square openings

200 lbs. maximum panel weight

IT'S WHAT'S ON THE INSIDE THAT COUNTS

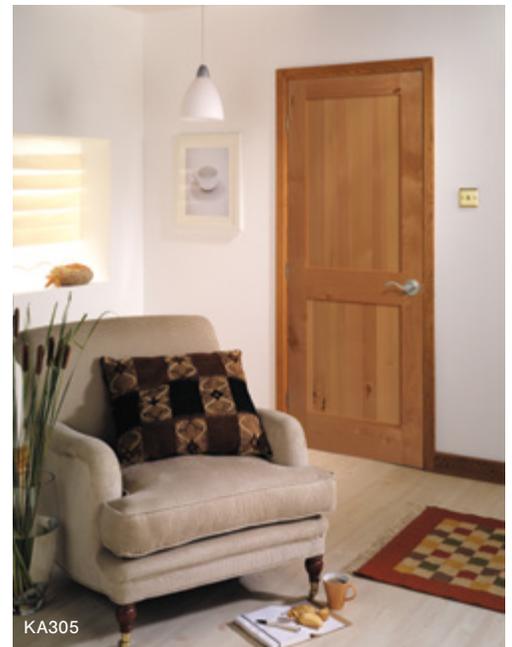

DISCOVER THE EL & EL DIFFERENCE

Doors set the mood for your style, comfort, and security. They give you the enhancement and curb appeal that puts your home over the edge. We take this very seriously at EL & EL Wood Products as the driving force in all of our door offerings.

At EL & EL, we pride ourselves on finding the highest quality materials for installation in your home. Our Knotty Alder doors have the quality look, feel, and durability you have been searching for. Also with our ability to make any custom door and moulding design in a wide range of species, we are ready to make your home the truest version of your design style possible.

ENGINEERED STILES & RAILS

Engineered stiles and rails are sturdier and less susceptible to warping and bending in the life of a door. The appearance is the same as non-engineered stiles and rails, but the core is made up of multiple pieces of wood that improves the strength and durability.

CROSS SECTION

EL & EL Wood Products RPM Doors

We at EL & EL Wood Products, combined the knowledge of traditional door craftsmanship with new material technology to create our RPM Series Doors. These doors marry international design influence with today's environmentally friendly technology. All RPM Doors are constructed using MDF (medium density fiberboard) – made from wood industry byproducts – which resists the shrinkage and expansion that leads to cracks and warping, inherent in solid wood door construction.

Our “one sheet construction method” sets us apart from the competition. This method offers a continuous sheet over the face of the door, effectively eliminating any chance of stile and rail separation common in most other types of door construction. This method allows superior paint finish results with fewer coats, greatly reducing your painting costs.

- Hand-built construction for an architecturally correct raised panel and raised moulding design feature at a much better value than a typical wood door
- 1¾" solid core door provides superior noise reduction over lighter weight hollow core doors
- “Seamless Construction:” One piece, solid MDF veneer to eliminate seam separation typical in stile and rail construction
- Finger joint pine edge along the top rail and stiles, with a full 3⅛" solid wood edge at the bottom rail, allows for job site trimming on all sides for a custom fit
- Premium lacquer-based primer standard
- Environmentally friendly materials
- No warping, cracking or seam separations
- Flush moulding door available for bypass and pocket doors
