How to shop and compare warranties

Is the warranty Limited or Full?

There are certain legal requirements to be able to use the designation "Full", so if it doesn't say "Full", it isn't.

Who does the work?

Milgard has warranty work performed by factory-trained technicians.

What is not included?

Many warranties don't cover labor, which can be one of the most costly aspects of warranty-related window repair or replace. Once again, be sure to read all of the small print.

Will there be an overwhelming amount of paperwork to complete after your windows are installed?

With Milgard, you simply buy our windows and you're covered for as long as you own your home. It doesn't get any easier than that.

Are there any hidden costs?

Find out if costs such as labor and shipping are included. Milgard doesn't charge for parts, shipping or labor to fulfill warranty work.

Anyone can offer a Lifetime Warranty, but can you trust that the window manufacturing company will be in business when you need to make a claim?

Milgard has been in business for over 50 years.

How long is the warranty itself?

If it's more than a couple of pages, make sure you completely understand what's covered and what's not.
